

SYCAMORE

Job Description

WELDER / FABRICATOR

Reports to

Lead Engineer / Manufacturing Manager

Job Purpose

Carry out hygienic pipework installations as required in our workshop and on customer sites throughout the UK. Be competent in stainless steel sheet metal work and fabrication.

Duties and Responsibilities

- Experienced and competent in stainless steel TIG welding.
- Understand manufacturing, schematic and P & I drawings.
- Work to a high standard at all times.
- Competent in pipe building and understand hygienic welding principles and procedures.
- Work as part of a team and take instruction.
- On occasion, work during unsociable hours and be prepared to work away from home.
- Liaise with customer or site employees and represent the Company at all times.
- Ensure that Health and Safety guidelines are followed. Be responsible for your own Health and Safety as well as those around you.
- Prepared to be trained for new skills or have further training in relevant areas.

Person Specification

Qualifications, knowledge, experience, skills and attributes.

Essential:

- Possess GCSE or an equivalent standard in English and Maths
- Relevant experience in TIG welding and fabrication with a working knowledge of sheet metal machinery and equipment
- Experience in thin wall pipe building and hygienic welding procedures
- Hold a valid driving licence
- Good communication skills
- Be hard working and conscientious
- A willingness to work overtime and be reactive to short notice changes
- Maintain a positive attitude and the ability to work calmly under pressure
- Ability to work on own initiative, be self-motivated, work as part of a team without constant supervision and form effective working relationships

SYCAMORE

- Ability to read manufacturing and P & I drawings
- Exceptional attention to detail and the ability to work to a high standard
- An understanding of relevant Health and Safety legislation

Desirable:

- Successfully completed an advanced modern apprenticeship or equivalent in fabrication and welding
- Experience of tank and vessel manufacturing
- Previously coded to TIG welding procedures
- Ability to weld using MIG/MAG processes
- Basic ICT skills
- Basic safety training or Health and Safety qualifications, IOSH or equivalent
- Previous experience of working within food, drink and allied sectors

Flexible Job Duties Clause

There will be times when you may be required to undertake additional tasks, duties and responsibilities within your capabilities. The Company reserves the right to vary your tasks, duties and responsibilities at any time according to the needs of the Company. However, you will not be assigned to duties that you cannot reasonably perform or which are outside the range of your normal skills and experience. There may also be times when you may be asked to transfer, either temporarily or permanently, to an alternative job within the Company. Where this is agreed with you, it will be confirmed in writing.
