

Environmental Policy

Sycamore Process Engineering Ltd recognises that good environmental practice is vital to the survival and standing of the Company, that of our customers and suppliers, and our combined prosperity.

The Company has implemented and operates an Environmental Management System in accordance with BS EN ISO 14001:2015.

Our policy towards the effective management of the environment is as follows:

- We will at all times, comply with mandatory legal requirements for all activities and processes carried out on the Company site and use whatever influence we can to promote the same to all suppliers and sub-contractors performing activities on our behalf, whether on or off site.
- As a primary objective, we aim to continually reduce and, wherever possible, prevent pollution resulting from the Company's activities and processes.
- We will pursue responsible policies towards the community and ensure that the interests of industry will not be served at the expense of the environment.
- We will utilise the full potential of the work force by providing all necessary training and a working environment that promotes safe and clean working practices.
- We will continually monitor our activities and processes to ensure efficient use of resources and to identify actual or potential sources of pollution with a view to implementing controls and necessary emergency response procedures, thus minimising waste generation, environmental impact and nuisance to neighbours.
- On an annual basis, we will review the environmental performance of the Company to:
 - i) ensure compliance with the requirements of legislation and this policy;
 - ii) identify areas for improvement, set specific objectives for the Company and wherever possible, target dates for achievement.
